

# HomeLink Parent Partnership Program

## 90 DAY Mentorship Program

For the first 90 days:

- You will partner with a certificated teacher who will be your advisor.
- Your advisor will be a resource for your family, guiding you to curriculum, sharing effective teaching practices, and answering your questions.
- You will be paired up with an experienced HomeLink family for further support, and if possible, will have children of similar age(s) to your family.
- Parents are required to accompany the student on campus for the 90 calendar school days.
- Students must enroll in two on-site classes.
- All other essential grade level subjects are taught at home.
- You will provide your advisor with monthly updates for all classes.
- You will also conference with your advisor when you enroll in HomeLink, after 45 days, and again after 90 days. Your advisor will also conference with you more frequently based upon need (s).
- At the end of your 90-day exploratory phase, each student will provide 2-3 samples of work completed in each class.
- Upon review and approval of your successful 90-day homeschooling phase, you will then be allowed to enroll your student(s) full time in HomeLink.
- Students who are not demonstrating success at 45 day intervals, will be precluded from continuing at HomeLink.
- Success is measured by 60% or higher in all classes and by in-class attendance.

Our HomeLink Parent Advisory Committee is committed to supporting families new to [Home-Based Instruction](#) as well as providing guidance to our [Alternative Learning Experience](#) program offered by the Lake Stevens School District.
