

March 10, 2020

Dear Lake Stevens School District staff and families,

As of today, Tuesday, March 10, there are no known confirmed cases of COVID-19 in Lake Stevens School District students or staff members. If that changes, we will follow the direction of the Snohomish Health District. We have helpful information, and a list of past updates, on our district website as a resource, [www.lkstevens.wednet.edu/covid19](http://www.lkstevens.wednet.edu/covid19).

Please support our efforts to minimize the spread of illnesses. The best steps you can take are the same ones that help prevent other respiratory illnesses. This includes all students, staff and families being vigilant in:

- Washing your hands often with soap and water for at least 20 seconds
- Avoiding touching your eyes, nose, or mouth
- Staying at home away from others if you are sick
- Avoiding close contact with people who are sick
- Covering your mouth and nose with a tissue when coughing or sneezing, then throwing the tissue in the trash and washing your hands

We thank you for your continued patience and understanding as we make important decisions to keep our students and staff members safe.

Warm regards,

Amy Beth Cook, Ed.D.  
Superintendent
