

June 01, 2022

Hello HomeLink Families,

I hope everyone had a wonderful long weekend. I am sad to share that this is our last newsletter for this school year. What an honor and joy it has been to be able to connect in person with our students and families. It has been so heartwarming to see our students in action in the classrooms. The laughter, discussions, and warm embraces have truly made our program feel so alive. Thank you from the bottom of my heart for continuing to be such amazing members of our program. I look forward to seeing our families and students return next year.

Picnic Sign Up

We still plan on hosting our annual HomeLink end-of-year picnic celebration at Lundeen Park, on June 9th from 11:00-1:00.

There is a signup sheet at HomeLink for food. Please plan on bringing an item to share if your family plans on attending.

The picnic will be held rain or shine.

Materials Pick Up/ Return

As we approach the end of the school year, Ms. Malean will be sending out an email to our families regarding picking up materials as well as returning materials. Please keep an eye out for her email.

Move Update

I can comfortably say that Lake Stevens High School is going to be our new home next school year. We are still in the process of building our space at the high school.

The anticipated move-in date is slated for the end of August, however, as you all know, life can throw us a curveball and we may not be able to move in during that time. If in the event we cannot comfortably move into our new space before the start of the school year, we will start the first semester here at our current home, Cavelero Mid High School, and will then transition to our new home after winter break.

I will provide much more information to our families the closer we approach August. Please keep an eye out for updates.

End of Year Advisor Meetings to Plan for Next School Year

We want all of our returning families to feel comfortable with transitioning back in the fall. Your student advisor is available to connect with you to review next year's schedule, review your student's course selection for next year, answer any questions you may have about the next year, and more. Advisory meetings are optional. More information from your student's assigned advisor will be coming out soon. Please keep an eye out for their email.

Schedule for Next Year

After reviewing the schedule and our current enrollment numbers for the next school year, there will be some changes to our master schedule. This information will come out in a separate email. Please be on the lookout for this information.

For families that have registered for Crazy Chemistry with Ms. Smitkin for next year, a separate google survey will be sent to those families as well. Please take the time to complete this survey when it is received. The survey will be going out today.

I hope everyone has an absolutely amazing summer break. Thank you all so much again for being part of our amazing journey this year. We would not be the program we are without all of the support. I look forward to connecting with our returning families in the fall and wish our remaining families all the best with their future endeavors.

Respectfully,

Angela Menon, Director of HomeLink
