Lake Stevens, WA 98258

July 20, 2020

Hello HomeLink families:

We know that there are a myriad of questions about the opening of school in the Fall. We are working thoughtfully at the district and school levels to ensure that our return to school is as safe as possible for all. Lake Stevens School district is committed to our return in the safest manner possible. For this reason, there are not a lot of answers about opening and schedules, as information and directions seems to be changing daily.

Here is what I can tell you:

- HomeLink Staff, Students and families will be required to wear masks on campus
- We will follow the state and district guidelines provided for safe opening of schools
- We are working to provide a variety of delivery models
- We are looking at amending our parent on campus requirements for 20-21 in an effort to have fewer bodies in our school.
 - Parent in charge sign ups for in-person classes
 - Parent in vehicle on campus

We will keep you in the loop as information becomes available.

As always, we greatly appreciate your dedication and commitment to HomeLink and our unique community.

We will be sending out a google-forms survey on July 22nd and would appreciate your timely return so we can make the best plans to serve our students and families.

Thank you!
