

EvCC Accuplacer

Our Testing Center has launched [Accuplacer via Zoom](#). Students will need their EvCC SID number and meet certain technical requirements. Students should refer to the website hyperlinked above for more information.

Accuplacer via Zoom Placement Test Request Form can be found [here](#).

Qualifying students must meet the following technical requirements:

- Desktop computer or laptop (tablets, Chromebook, and cell phones do not meet our requirements).
- A working built-in or external webcam and microphone.
- Internet speed must be at least 2 Mbps download and 2 Mbps upload. Hot spots are not recommended.
- Browser with pop-up blocker disabled.

Timeline

- Students that contacted the Testing Center in March and April have been contacted by staff to set-up an appointment.
- The process between submitting the Accuplacer Appointment form and getting assigned a session can take 4 business days. This is due to the process of setting payment online, verifying payment, and getting the student to select times.

Things to Consider

- If a student is unable to meet all 4 technical requirements for Accuplacer via Zoom, and they do not qualify for alternative placement, at this time, the student will need to take the Accuplacer in person when the college opens.
- Students will be able to get their scores as soon as they complete their assessments.
- We are waiting to see if Governor Inslee will extend the stay-at-home order. If the college opens after May 4th, this can change our process. We will remain ever flexible and update you as soon as possible.
