

**COMMITMENT TO STRATEGIC PLANNING**

**POLICY:**

Through the strategic planning process, the Board affirms its commitment to continuing an active involvement with the community, staff, and students. The District's planning, implementation, and evaluation processes will incorporate community, staff, and student participation and opportunities for public input.

The Board of Directors recognizes that the goals of high quality education for all students and increasing student achievement require structures, processes, skills, and ways of thinking that must be established for the District. The Board of Directors commits the District to the process of strategic planning in order to provide a fundamental governance and management structure for the District. Planning will enable the District to respond to new developments and continually improve education within the discipline of the planning process.

Policies adopted by the Board and administrative practices will be measured against and consistent with the strategic plan.
